This publication contains proposed curriculum changes. This Curriculum Register conforms to the curriculum review process as described in the Fall 2007 Curriculum Review Guide. It contains two sections, **Campuswide Proposal Sharing**, which includes a synopsis of course and program proposals that have been submitted for review to their department curriculum committee or program faculty and **University Curriculum Committee (UCC) Recommendations** that includes completed information on proposals reviewed by UCC.

Every proposal must complete all stages of the curriculum review process:

1. Submission of proposal(s) by originating department/program.
2. Review by every department/program in the school/college in which the program is housed.
3. Review by Department Curriculum Committee or Program Faculty.
5. Review by General Studies, Liberal Studies, or Graduate Council, when appropriate; preparation of impact statement.
6. Review by the Dean for school/college resource implication; preparation of resource impact statement.
7. Review by the Office of Academic Programs; preparation of university resource impact statement.
8. Review by the originating School/College Curriculum Committee.
9. Review by the University Curriculum Committee (UCC).
10. UCC recommendations posted in the Curriculum Register.
11. Review by Academic Affairs Program Effectiveness Committee, when appropriate.
12. Approval by Vice President for Academic Affairs or designee.
13. Approval by President, when appropriate.
14. Approval by Off Campus Approval bodies, when appropriate.

**Moratorium for Proposals in Campuswide Sharing Stage:**

There will be a 10 working day moratorium, starting from the publication date of the Curriculum Register, during which departments, deans, or individual faculty may raise objections or concerns, in writing, to the proposing School or College Curriculum Committee or Program Faculty for proposals in the campuswide sharing stage. The Campuswide Sharing section of the Curriculum Register contains only a summary of the curriculum proposal. Please ask the Department Curriculum Committee or Program Faculty for a complete proposal packet if you have questions or concerns.

**Moratorium Date: March 1, 2010**

Once the moratorium date has passed for campuswide sharing and no objections are received, the proposal will continue through the stages of the curriculum review process.

The Curriculum Register is produced by the Office of Academic Programs. Any questions or comments should be directed to Tracey Haney at ext. 3308.

CAMPUSWIDE PROPOSAL SHARING

College of Natural and Behavioral Sciences
BA Anthropology (modify program) ..................................................................................................................... 4
ANT 100, Introduction to Culture (modify course) ............................................................................................ 4
BIO 320, Cell Biology (modify course) ................................................................................................................ 4
CAMPUSWIDE PROPOSAL SHARING

The following proposal(s) have completed steps 1-3 of the Curriculum Review Process (see pg. 1 of Curriculum Register).
Program/Course: BA in Anthropology  
Proposer: Jerry Moore  
Type of Change: Modify Program  
Summary of Changes: The Anthropology Department proposes to modify the BA in Anthropology by (1) adding ANT 312: Language and Culture, and ANT 390: Applied Anthropology as required courses (2) revising the elective groupings and number of electives required within concentrations and (3) requiring that all courses used to satisfy the major be passed with a grade of “C” or better.

Program/Course: ANT 100  
Proposer: Jerry Moore  
Type of Change: Modify Course  
Summary of Changes: The Anthropology Department proposes to modify ANT 100: Introduction to Cultures by changing the course title to Introduction to Cultural Anthropology.

Program/Course: BIO 320  
Proposer: Helen Chun  
Type of Change: Modify Course  
Summary of Changes: The Biology Department proposes to modify BIO 320: Cell Biology by revising the course prerequisites. Currently BIO 320 requires completion of BIO 124/125 and either CH 310/311 or CHE 316/317. The department proposes to replace the BIO 124/125 requirement with BIO 220/221; the CHE requirements will remain the same.
UNIVERSITY CURRICULUM COMMITTEE
RECOMMENDATIONS

The following proposal(s) have completed steps 1-11 of the Curriculum Review Process (see pg. 1 of the Curriculum Register).

During the current cycle there are no recommendations to report.
