Curriculum Register
March 16, 2015

This publication contains proposed curriculum changes. This Curriculum Register conforms to the curriculum review process as described in the fall 2007 Curriculum Review Guide. It contains two sections, Campuswide Proposal Sharing, which includes a synopsis of course and program proposals that have been submitted for review to their department curriculum committee or program faculty and University Curriculum Committee (UCC) Recommendations that includes completed information on proposals reviewed by UCC.

Every proposal must complete all stages of the curriculum review process:

1. Submission of proposal(s) by originating department/program.
2. Review by every department/program in the school/college in which the program is housed.
3. Review by Department Curriculum Committee or Program Faculty.
5. Review by General Studies, Liberal Studies, or Graduate Council, when appropriate; preparation of impact statement.
6. Review by the Dean for school/college resource implication; preparation of resource impact statement.
7. Review by the Office of Academic Programs; preparation of university resource impact statement.
8. Review by the originating School/College Curriculum Committee.
9. Review by the University Curriculum Committee (UCC).
10. UCC recommendations posted in the Curriculum Register.
11. Review by Academic Affairs Program Effectiveness Committee, when appropriate.
12. Approval by Vice President for Academic Affairs or designee.
13. Approval by President, when appropriate.
14. Approval by Off Campus Approval bodies, when appropriate.

Moratorium for Proposals in Campuswide Sharing Stage:

There will be a 10 working day moratorium, starting from the publication date of the Curriculum Register, during which departments, deans, or individual faculty may raise objections or concerns, in writing, to the proposing School or College Curriculum Committee or Program Faculty for proposals in the campuswide sharing stage. The Campuswide Sharing section of the Curriculum Register contains only a summary of the curriculum proposal. Please ask the Department Curriculum Committee or Program Faculty for a complete proposal packet if you have questions or concerns.

Moratorium Date: March 27, 2015

Once the moratorium date has passed for campuswide sharing and no objections are received, the proposal will continue through the stages of the curriculum review process.

The Curriculum Register is produced by the Office of Academic Programs. Any questions or comments should be directed to Tracey Haney at ext. 3308.

Program/Course: PPS 555 Child Welfare and Attendance Fieldwork  
Proposer: Adriean Mancillas  
Type of Change: New Course  
Summary of Changes: The PPS program proposes to create a new course required for the optional Child Welfare and Attendance (CWA) authorization (a supplemental authorization for PPS School Counseling credential students) in order to fully meet CCTC’s accreditation requirements and to better address the fieldwork supervision required by CCTC. The addition of this PPS 555 course would bring the total unit requirements for the CWA authorization from 6 units to 9 units, which will meet CCTC’s accreditation requirements.

Program/Course: PPS School Counseling Credential  
Proposer: Adriean Mancillas  
Type of Change: Modify Program  
Summary of Changes: Through the proposed course modifications of creating a new course, PPS 555, the optional Child Welfare and Attendance (CWA) authorization requirements would result in an increase in 6 units to 9 units. This modification only would affect the CWA authorization, not the PPS credential itself. The modification of adding PPS 555 would serve to meet the accreditation requirements of the California Commission on Teacher Credentialing (CTC), which requires CWA programs offer a minimum of 9 specialization units.

Proposer: Mike Ernst

Type of Change: Discontinue Program/courses

Summary of Changes: In the fall of 2009 student enrollment into the recreation major was suspended as a way to save the university money. Remaining students in the program were taught out. There are no students currently in that program. After a thorough review of the viability of re-establishing the recreation program, the faculty of the Division of Kinesiology have determined that the program is no longer viable. There are fewer employment opportunities for graduates in recreation, and therefore, a decreased need for recreation major programs. Further, the current faculty within the Division of Kinesiology and Recreation do not have the expertise to teach all of the courses required for the majors in recreation. Finally, Long Beach State University has a fairly robust recreation program in which students in our service area can attend if they are interested in this major. For these reasons the faculty of the Division of Kinesiology and Recreation have decided to discontinue the recreation major and the required courses.
