

## Anthropology BA

I. What do we expect students to learn?				
A. Program Learning Outcomes: List your PLOs (the cognitive/knowledge, behavioral/skills, and/or affective/values you expect your students to achieve). These must be stated in measurable terms. Generally, there should be 5 to 10 PLOs.		B. Standards For Your Program's Success: State percentage of students you expect will achieve each PLO at each competency level by the end of your program.		
Program Learning Outcomes		Competency Levels		
		Basic	Intermediate	Advanced
	<i>Sample: Distinguish between descriptive and inferential statistics and understand how these apply to outcome measurements.</i>	100%	60%	40%
