Beginning of Semester Blackboard Checklist

✔ Check Course Menu

Confirm that the Course Menu consists of the buttons or links that you wish to use and, if necessary, rename, modify, hide, show, or reorder the menu items. Course Menu items that do not contain any content are automatically hidden from student view but are visible to the instructor while in Edit Mode. [Course Menu Video Tutorial]

1. In the upper-right corner, select Edit Mode ON.
2. To add a new link to the Course Menu, click the "+" at the top left, and select the item you want to add.
3. Rename, Hide or Delete links as necessary using the pull-down menu to the right of each link. Note: If you remove a menu item, all information within that area is removed permanently.
4. Organize your course menu using the drag and drop feature to move menu items up or down. For longer course menus you may want to consider creating Subheaders and Dividers by clicking on the "+" icon and selecting these features.
