For more than 125 years, Edison International has helped build stronger communities. Edison International believes that education is an important source of power and advancement for young people, and it helps strengthen communities. Since 2009, Edison has given more than $34 million to education programs that help make the dream of college education a reality. These programs have focused on helping minority, low-income, and underrepresented students pursue studies in science, technology, engineering, and mathematics (STEM).

Fifteen $4,000 scholarships and one $5,000 scholarship will be awarded for the 2015-2016 academic year. Each of the following campuses can nominate two to three students:

California State University, Dominguez Hills  California State University, Fullerton
California State University, Northridge  California State University, Long Beach
California State University, Los Angeles  California State University Channel Islands
California State Polytechnic University, Pomona  California State University, San Bernardino

- Applicants must be graduate students in one of the STEM majors listed below.
- Applicants must demonstrate financial need as determined by the campus Financial Aid Office.
- Applicants must be in good standing with a minimum GPA of 2.8 on a 4.0 scale.
- Recipients must remain a California State University full-time equivalent student during the scholarship period.

STEM Majors fall into the following categories:

- Math
- Physics
- Chemistry
- Computer Science/Information Systems
- Engineering: Electrical, Computer, Chemical, Mechanical, Civil and Nano
